# BROUGHTONFEST

BroughtonFest is coming up soon on 4th July 2026, and we'd love to make it our most successful event yet!

However, we can't run an amazing event without your help. Last year, we unfortunately had to close a couple of stalls, including Hook the Duck, because we didn't have enough volunteers.

To make sure BroughtonFest returns **bigger and better** this year, we need 2 volunteers per stall per hour between 3pm and 7pm. **If everyone could sign up for just one hour, we'll be able to run this stall** – and many more – throughout the event.

Every little bit of help really does make a huge difference, and volunteering is a great way to be part of the day and support our school community.

Thank you in advance for your support! Please click on the link to register your support.

**You are welcome to agree with another parent/ relative to be the responsible adult for other children, and this must be clearly stated on the booking/ waiver form and have their agreement**

## FAQ'S/ ⚠ Safety Information from the Event Colour Website

### **Are your powders safe?**

We believe our powders are the safest powders available, EN71 certified for use by children, made from ground maize (cornflower), not recommended for children under 3 years old.

### **Do we need eye protection?**

There is an advisory for eye protection, goggles meet this advisory, sunglasses do not! as they technically are not sealed at the top/ bottom and sides. However, they do give a good amount of protection

### **Are The powders washable?**

Our powders may stain clothing as they contain a coloured dye, we advise a white t-shirt to show off our bright colours to their true effect, and old clothing. Let's be honest we wash now at 30-40 degrees and this just won't washout the powder in one wash.

### **Can we protect the colour and reuse the t-shirt?**

Great question as the children seem to love the t-shirt now all bright and colourful, and you can semi fix the powder into the t-shirt simply by spraying white vinegar onto the t-shirt and ironing with a hot iron over grease proof paper. This will allow a quick wash 2 or 3 times before the powder fades.

### **Skin and hair - will the powder wash out?**

Our powders are coloured with cosmetic dyes so washing should not be a problem, but please remember that some hair products will make washing more difficult, stick to your normal washing routine, and repeat of necessary.

🌟 Get ready for a fun, colourful and unforgettable event! 🌟
